To the Class of 1998,

When we hear the phrase "the competitive edge" we are usually reminded of sporting events where one team may have a distinct advantage because they are playing on their home field or home court. That advantage, of course, is nothing mysterious since the home team has reaped the benefit of constant practice or training in the environment in which the game is played. In any endeavor or activity familiarity always provides a distinct advantage.

So it is that we say that vocational graduates always enjoy the competitive edge in whatever your choice of career may be because, unlike many other high school graduates, you are very familiar with the work environment. Not only have you attained the necessary skill to do whatever your job demands but additionally you have learned well how to succeed and progress in the workplace. The realization that one must follow directions, subscribe to rules and regulations, be respectful to others, maintain good attendance and respond promptly are habits that you have developed after four years of practical experience at Tri-County.

The great majority of your competitors in the workplace will not have had that advantage and will need to take valuable time to master practical skills and to practice favorable on-the-job behaviors. They will not enjoy the advantage that you have because, until graduation, their learning had been strictly theoretical and the workplace will be new to them. Whereas, your familiarity with the entire scope of the work environment makes it your home court - and therein lies the competitive edge - please use it to your advantage.

Congratulations and on behalf of all faculty and staff at Tri-County - thank you for having been with us.

Sincerely,
John M. Jones
Superintendent-Director

To my fellow classmates of the class of 1998,

As I write this to you only a few short weeks remain before we as seniors leave the halls of Tri-County behind us for the last time. We have all worked hard to make it to graduation, starting in the ninth grade when we all saw each other at orientation through sophomore and junior year till now, our senior year. For many of us it was hard to make that decision to leave our local high schools and friends to come here. However, since Tri-County is a school of many towns, we have had the chance to meet and make new friends and relationships that we will remember forever.

I know for myself it was difficult being the only person in my grade from my town, but I soon made friends that could never be replaced and I was still making friends through my senior year. I know we can't remember everything that has happened to us since September of 94, but I am sure that we can all probably remember at least one special memory that will linger in our minds as a reminder of our successes, our struggles and our friendships at Tri-County.

We have shared many experiences together, be it our junior/ senior prom, our dinner dance, our class trip or just a day in shop. Whether we realize it or not Tri-County has left a significant mark on us and now as we enter the real world united it is time to take what we have learned and put it to work. As we leave here and continue with our lives we feel like we did as a ninth grader walking into our school for the first time. It will be an all new experience - an adventure if you will - but if you look back at the years spent here together you will find the strength, the sharing and smiles that have helped you to become the person you are today. Until we meet again!

Sincerely,
W. Galligan
